Mountain Rhythm – 10” Pine Djembe-Cajon- NEW - \$150

Mountain Rhythm made some of the best drums ever using stave construction – this is a 10” (head) diameter pine djembe-cajon – Mtn Rhythm is no longer available except when you’re lucky enough to trip across one for sale here and there – have a number of Mtn Rhythm items coming up for sale, most are new, including Ashikos, custom skin-head bongo, other djembe-cajons, custom skin-head snare drum, etc

Meinl Palito – New old stock, open box - \$65

Strings which touch the playing surface on the inside deliver a sensitive sizzle effect that fits various musical applications. Its compact size and light weight makes it the perfect companion on the road. Features Adjustable sizzle effect - Compact - Resonating body: Rubber Wood (Hevea brasiliensis Muell.-Arg.) Playing surface: Makah-BurlFinishMatte

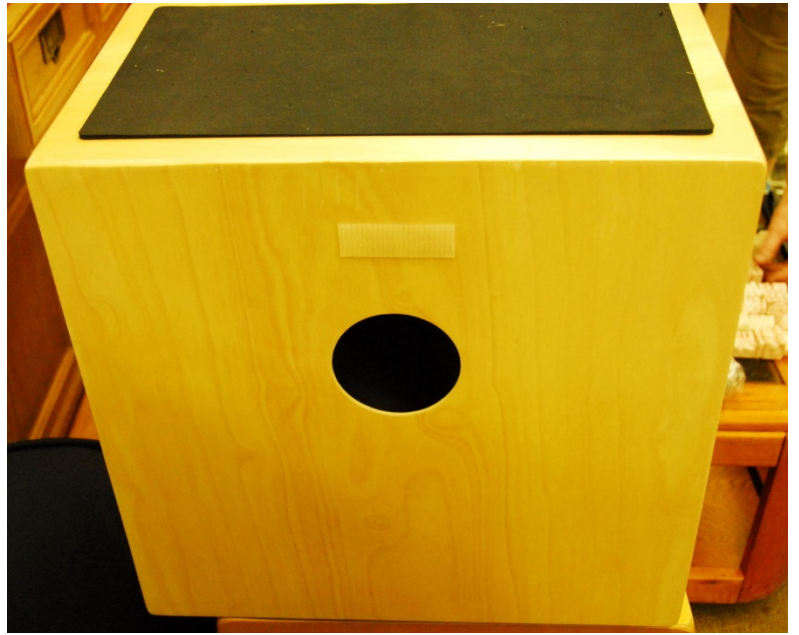

Meinl Trejon – Used - \$225

The MEINL Trejon is a breakthrough in cajon development - Three separate face plates create three distinct tonal effects. It is similar to a drum set in that bass, snare, and tom sounds are in easy reach on the comfortably angled playing surface.

The face plates are exotic and stylish. Angled front plate for more playing comfort Great bass tones Adjustable top corners Padded sitting surface Wide sound options

Three separate face plates on angled playing surface Bass, snare, and tom effect Two internal snare wires

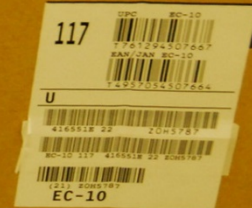

Roland ElCajon EC-10 Electronic Cajon – Used once - \$350

Unique and versatile, the ELCajon EC-10 allows cajon players to easily enhance their music with layered electronic sounds. To start, the EC-10 is an authentic acoustic cajon that sounds great on its own. What's more, it has Roland's renowned electronic percussion technology built in, letting you blend a range of complementary sounds with the cajon voice, from traditional percussion like tambourine and shaker to acoustic snare, electronic drums, sound effects, and more. Completely self-contained with battery power and onboard amplification, the ELCajon EC-10 puts the dynamic world of hybrid percussion in the hands of every cajon enthusiast

Roland EC-10M Cajon Mic Processor – New open box - \$250

The Roland EC-10M ELCajon Mic Processor is a unique and innovative creative instrument designed for the (any) acoustic cajon. It reinforces and amplifies your cajon sound so that your performance can always be heard, whether you're playing in small bars or on large stages.

You can also perform with

additional sounds such as tambourine, shaker, djembe, and electronic drums. Adding an EC-10M to your set-up turns a standard acoustic cajon into an instrument that can cover a world of percussion. In addition to a standard acoustic cajon, you can also use the EC-10M with various other instruments by simply attaching the dedicated clip-on mic, such as mini cajon, an acoustic guitar or even a cardboard box. The acoustic cajon playing experience is reinvented and extended with the EC-10M ELCajon Mic Processor.

Features:

- Easy setup—simply attach the included clip-on condenser mic to the sound hole of the acoustic cajon and start playing
 - Amplify the acoustic cajon—the EC-10M can be used as a mic preamp for the supplied microphone
 - A variety of sounds—16 onboard kits with tones including tambourine, shaker, djembe, electronic drums, and more can be layered with your acoustic cajon
 - Multiple tones—play two different electronic sounds by slapping either the edge or head of your acoustic cajon
 - Add pedals—up to two kick-trigger pedals (Roland KT-10, KT-9, or KD-7) can be connected to play additional sounds; integrated A/B foot pads can also trigger sounds
 - Create loops and play along—a simple looper function allows recording of rhythm phrases using the onboard sounds
 - Versatile outputs—send the microphone and layered sounds to a PA mixer via two independent outputs, or mix all sounds into one mono output
-

Meinl Pickup Slap Top Cajon – Mahogany

-New old stock, open box - \$100

Equipped with dials to mix your sound, the Pickup Slap-Top Cajon gives you the ultimate playing experience when extra amplification is needed. This cajon contains a passive pickup system that has bass, snare, and tone controls, along with a high quality output jack. A mahogany playing surface with internal snares delivers outstanding crisp slap tones and punchy bass notes. Play towards the middle for deep bass and on the sides for snare sounds. The forward facing sound port helps the cajon to project in acoustic settings.

Djembe-Cajon 13" x 24" Shells - Senegal - \$100 each

Had planned to use these shells to develop some changeable top djembe cajons utilizing a variety of tops in a replaceable head system so that one could swap out various cajon heads such as mahogany, spruce, bamboo, etc without gluing the heads to the shells - ran out of time so offering them up for sale - if you're into djembes and the like you know that some of the best shells come from the Ivory Coast and Senegal - had an instrument importer acquaintance who made regular trips back and forth and hand-picked these shells for me - they have a diameter of 13" +/- and are about 24" high

10" Djembe, rope-tuned, skin head - \$100 each

This is a nice pine 10" djembe, rope-tuned and almost new and with a skin head
